

Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

EHRs provide
healthcare professionals
with easy access to a
patient's medical history
and allow for rapid
retrieval of important
information, enhancing
patient care and safety.

EHRs often integrate data from various sources, such as laboratories, pharmacies, and imaging facilities, creating a comprehensive patient profile.

Person 2

EHRs can offer patient portals, enabling individuals to access their own health

Person 3

reducing paperwork and insurance

claims.

Person 4

EHR systems often allow healthcare providers to customize templates and workflows to fit their specific needs and specialties

Implementing EHR systems can be costly and challenging, and there are ongoing costs associated with

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

① 20 minutes

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.
